

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

LISTING OF CLAIMS:

Claims 1-3 (canceled).

4. (New) A coupler plug, comprising:
 - a housing;
 - electrical components fixed in place in the housing;
 - a balancing element for a probe, the balancing element being mounted one of within the coupler plug and, via a further contact element, outside the coupler plug;
 - at least one electrical flat plug-connector;
 - a secondary locking element for serving as a locating element for fixating the at least one electrical flat plug-connector inserted in the housing; and
 - flat contacts provided in the plug housing and capable of being fixed in place simultaneously with the aid of the secondary locking element, wherein:
 - the secondary locking element includes on a first level A a receiving device for the at least one electrical flat plug-connectors in the form of a locking plate,
 - the secondary locking element includes on an additional level B a locating device in the form of a locking hook.
5. (New) The coupler plug as recited in Claim 4, wherein:
 - the coupler plug is for a planar lambda probe.
6. (New) The coupler plug as recited in Claim 5, wherein:
 - the planar lambda probe includes a planar broad-band lambda probe.
7. (New) The coupler plug as recited in Claim 4, wherein:
 - the housing includes a base element and a cover element.

8. (New) The coupler plug as recited in Claim 4, wherein the locking hook points away from the locking plate at least in an approximately perpendicular manner.

9. (New) The coupler plug as recited in Claim 4, wherein the locking plate and the locking hook form an integral component.
